

Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

1. Morning Assembly at SISTec

The morning assembly, a rigorously practiced daily activity since its inception in 2007, serves as a motivating and energizing start to the day for our students. The assembly commences with a religious morning prayer, followed by a thought for the day. A unique addition to our assembly is the 'Technical News and Technical Buzz' segment, where students share updates and insights from the world of technology.

Furthermore, the assembly includes moments of maximum felicitation, during which outstanding achievements are acknowledged. General announcements related to students and department updates are also seamlessly integrated into the assembly routine. This well-rounded approach has garnered appreciation from external visitors, including notable figures like the NBA team and various dignitaries. The assembly concludes on a patriotic note with the singing of the national anthem, fostering a sense of unity and pride among the students. This carefully curated blend of spiritual, informational, and celebratory elements sets the tone for a productive and spirited day ahead.

2. Celebration of National Festivals and other cultural and linguistic celebrations :

At SISTec, the celebration of national festivals and important days is a vibrant and integral part of our academic calendar. We enthusiastically observe Independence Day, Republic Day, and Labour Day, and commemorate the birth anniversaries of notable personalities, including Dr. Sarvepalli Radhakrishnan

(Teachers Day), Sir M Visvesvaraya (Engineers Day), Swami Vivekananda (Youth Day), Dr. Babasaheb Ambedkar, Mahatma Gandhi, and World Yoga Day.

The participation of our students in these celebrations is marked by sincere enthusiasm, reflecting today's youth's commitment to building a united India beyond religious and caste boundaries. Independence Day and Republic Day are particularly celebrated with immense pride as we salute the glory of our nation, fostering a sense of national integrity.

During these events, institute leaders share their views in support of national interest, followed by active participation from students. The atmosphere resonates with national integration as staff and students engage in various activities such as skits, speeches, dancing, and singing, all centred around patriotic themes.

Furthermore, the institute pays homage to great Indian personalities by celebrating their birth and death anniversaries. International Yoga Day is a special occasion annually observed to encourage students to embrace a healthy, positive, and meaningful lifestyle.

These celebrations not only instill a sense of patriotism but also contribute to creating a harmonious and inclusive community at SISTec.

Independence Day Celebration

Sagar Group of Institutions - SISTec celebrated the 76th Independence day which was declared Azadi Ka Amrit Mahotsav in all parts of India. It was no less a fortune to witness and live this festival of independence that symbolizes the power of liberty, freedom and democracy. To make the event memorable, SISTec initiated "PlasticFreeCampaign" by launching eco-friendly jute bags of Sagar Group.

3. Plantation Drive :

Engaging in a plantation drive at the college level is a commendable initiative that contributes positively to the environment. Here's a description of a typical plantation drive at a college:

At SISTec, environmental consciousness takes center stage through initiatives like our annual Plantation Drive. This green endeavor is a collaborative effort involving students, faculty, and staff, all united in our commitment to fostering a sustainable and eco-friendly campus.

The Plantation Drive typically kicks off with a brief awareness session, emphasizing the importance of trees in maintaining ecological balance, combating climate change, and enhancing overall well-being. Students are encouraged to actively participate, understanding that each planted sapling plays a vital role in the future of our environment.

A designated area on the college premises is chosen for the plantation, and the event is usually scheduled during a season conducive to tree growth. Native and indigenous plant species are preferred, aligning with local environmental conditions.

During the drive, students are provided with the necessary tools, including saplings, shovels, and watering cans. This hands-on approach not only connects them with nature but also instills a sense of responsibility towards the environment. Faculty members and environmental experts often guide the students, offering insights into proper planting techniques and the ecological significance of the chosen plant species.

The plantation drive is not just a one-time event; it marks the beginning of a long-term commitment to nurturing the planted trees.

The benefits of the plantation drive extend beyond environmental impact. It fosters a sense of community among the college members, promoting teamwork and shared responsibility. Moreover, the lush greenery resulting from these efforts transforms our campus into a more aesthetically pleasing and healthier space for everyone.

By integrating environmental awareness with practical action, our college's Plantation Drive stands as a testament to our dedication to creating a sustainable and ecologically conscious learning environment for present and future generations.
